

## Translation of a letter in which we ask you to answer some questions

You have received a letter from the City of Stockholm, from the municipality's scheme to ensure gainful activity. This is a translation of that letter.

\*\*\*\*\*

### **Are you not going to school? Don't have an upper secondary school diploma? We can help you get on in life!**

Hello,

We have been made aware that you are not attending an upper secondary school or that you have no upper secondary school diploma. At Jobbtorg Stockholm, we offer support and guidance to young people who have no upper secondary school diploma to help them get into studies, a work placement or a job. We also support those who need more time to think about what they want to do in the future.

#### **Would you like our free support?**

Answer a few questions about your situation by scanning the QR code or following the link below. We'd really like to have your answers as soon as possible. If you don't answer at all, we'll continue to contact you to offer support.

[Answer our questions here.](#)

Or by scanning this QR code:

### **Why are you receiving this letter?**

Everyone who is under the age of 20, is not attending upper secondary school or has no upper secondary school diploma, is covered by the municipality's scheme to ensure gainful activity, KAA (Chapter 29, Section 9 of the Swedish Education Act). This means that the City of Stockholm has a responsibility to make contact with you and offer you support, so that you can find gainful employment. You can read more at: [ung.stockholm/kaa](http://ung.stockholm/kaa)

### **Contact details of local coordinators**

Our local coordinators are responsible for different city districts. Select the contact details for the city district where you live, see the list below. Every Jobbtorg also has a drop-in session once a week, where you can call in if you have any questions or concerns. You don't need to book an appointment.

If necessary, we can book an interpreter free of charge. Contact us and let us know that you need an interpreter and for which language.
